## EXPERT SOLUTIONS

We deliver expertise and project support from start to finish. Local Pella Commercial representatives support your team, managing the details throughout the design and construction process – so you have more time to focus on the big picture.

**BUDGETING ASSISTANCE**

- Help determining solutions within your parameters
- Value-engineering solutions with a pre- and post-bid cost-savings analysis

**DESIGN ASSISTANCE**

- Project-specific elevation and detail drawings for inclusion in your project documents
- Custom product and installation design
- Downloadable 2D CAD and 3D BIM drawings
- Help with specifications
- AIA/CES programs and other learning opportunities

**PROJECT MANAGEMENT**

- Help managing your project's fenestration budget and timelines
- Field measurement assistance
- Full installation shop drawings
- Samples and mock-ups
- On-site support (testing, installation options, quality inspection)
- Special Projects management team to oversee complex building challenges
- Local service to the owner and tenants after the sale

**THERMAL ANALYSIS**

- Full thermal model capabilities
- Building envelope analysis to aid in evaluating decision-making
- NFRC compliance

**SUSTAINABILITY SOLUTIONS**

- Products and expertise that contribute to green building performance and certification
- Products designed for energy efficiency

**ENGINEERING SOLUTIONS**

- Code review to help determine proper design loads
- Water management solutions
- Structural analysis and design support
