Height	70.5-in.	95.5-in.

FRAME TYPES

- 5-in. block frame can be used in replacement of old aluminum or steel frame windows or pocket replacement in wood frames. They may also be used in new construction block or concrete walls.
- The block frames include interior and exterior accessory grooves.
- 5-in. nail fin frame can be used in new construction applications and allow for an easy installation.
- 3-1/4-in double-wall flush-flange frames are typically used in replacement installation applications, used to install against existing stucco facade, covering the existing window frame and creating a simple method for water management and an aesthetically appealing exterior look.
- Custom sizes are available in 1/8-in. increments for a precise fit.

¹ Based on the force required to bend a window frame profile.

² Some Pella products may not meet ENERGY STAR® certification in Canada. For more information, contact your local Pella sales representative or go to nrcan.gc.ca/energy/products/categories/fenestration/13739.

³ Warning: Screen will not stop child or pet from falling out of window or door. Keep child or pet away from open window or door.
